Statistician, Doctor in Public Health, she has worked at the National Cancer Institute of Brazil since 1997 with cancer surveillance, mainly with analysis of incidence and mortality.

She is responsible for the technical coordination of Brazilian population-based cancer registries, working to implement, maintain and improve the quality of PBCR data.

It promotes the dissemination of PBCR data through the INCA website, specific publications, research and scientific articles. It supports and encourages the participation of PBCRs in international research and publications.

Main topics: cancer registries, cancer in children, adolescents and young adults, cancer surveillance, cancer morbidity and mortality.
